1. Thomas sends “South America forecast report” to On the Rise partner owner Seroja Malone. Seroja wants to create a data validation rule to ensure that Column C only includes sales from the month of June. What does she need to do? Select TWO.

1 / 1 point

- ☒ She can open the **Data** menu, select **Data validation**, choose Column C, and add the criteria **Text | equals | June**. Then, select **Save**

 **Correct**

Correct

- ☐ She can ask Thomas to apply a custom filter to Column C
- ☐ She can create a custom formula that includes the range “June sales”
- ☒ She can right click on Column C, select **Data validation**, and add the criteria **Text | equals | June**. Then, select **Save**

 **Correct**

Correct

- ☐ She can open the **Insert** menu, select **Data validation**, choose Column C, and add the criteria **Text | equals | June** Then, select **Save**

2. Seroja selects the cell H30. It contains the following formula: =H1+H8. She copies the contents from H30 to cell I30. What happens to the formula? Select the correct response.

1 / 1 point

- ☒ The formula automatically updates to =I1+I8
- ☐ You cannot copy a formula, only numeric values
