1. On the Rise store owner Yousef Amadi is analyzing monthly sales data from his Fort Lauderdale store. He'd like to see the data visually by converting it into a bar chart. What does he need to do? Select the correct response.

   1 / 1 point

   ○ He needs to open the **Data** menu, click **Create Chart**, and follow the instructions to select a range and configure the chart

   ○ He needs to select **More Options**, then select **Chart**, then choose **Bar Chart**

   ⦿ He needs to select the range of cells to include, open the **Insert** menu, select **Chart**, then choose **Bar Chart**

   ○ He needs to select the range of cells to include, open the **Tables and Charts** menu, select **Chart**, then choose **Bar Chart**

   ⊘ **Correct**
   Correct

2. Yousef creates a bar chart. Next, he wants to move the chart to the top left of the screen. What does he need to do? Select the correct response.

   1 / 1 point

   ○ He should select **Move chart** and insert the final screen coordinates

   ○ He cannot move the chart once it's been inserted

   ⦿ He should click and drag the chart

   ○ He should open the **Insert** menu and select **Move**

   ⊘ **Correct**
   Correct
